

# How Does it Fly? The Art, Science and History of Aviation

A fun-filled session in which Jason T. Archer will take some of the mystery and myth out of the basic principles of flight. This interactive program will explore our basic understanding of the science behind the aerodynamics you have been taught. Learn how to make some of the more complicated flight principles easy to understand and gain a fresh perspective on how airplanes fly. Interesting for all pilots, and a must-see for those who educate and wish to inspire others to fly!

This is guaranteed to educate and entertain all that attend, and make you a safer aviator. If inclement weather is forecast for the seminar date, call 860-654-1039 for a status message.

**Directions:** Take Rt. 41/23 to Rt. 71 Egremont Plain Rd. or see map link at [FAASafety.gov](http://FAASafety.gov)

## A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!

## Event Details

**Sat, Nov 22, 2014 - 13:00 EST**

**Great Barrington Airport**

70 Egremont Plain Rd

Great Barrington, MA 01230
